A message from our President
I hereby send out a personal invitation as President of ETNZ for you to join us at the ETNZ Conference, 19-21 June. The theme this year is "Directions" which as one of the companies based in the Canterbury area has some very poignant connotations. There are many companies and people in our region who are contemplating and re-thinking business and personal directions so maybe we can all pick up on this and get some interesting and stimulating debate going on the direction the entertainment industry will take over the next few years.

As usual there will be a tradeshow attached to the conference, at which most of our NZ based companies will be represented. In addition to this there is very real interest from some overseas companies to attend and meet those people working in the entertainment industry.

A new feature of this conference is the addition of a dedicated day for those involved at the school and education level, this to be held on Tuesday, June 21.

Stimulating seminar topics will be included for technicians, EVANZ members, teachers, students, musical theatre members and professional people involved in the entertainment industry to gain further knowledge and share ideas.

And last but most important, this is the opportunity for you to join all those other people working in our industry from throughout New Zealand, catch up, have a laugh and continue to develop your friendship and relationship with each other. I look forward to meeting you all in June.

Rob Peters
